

OrderWise Goods In & Stock Standard Layouts (Normal Item)

Version 20.11

These are the standard Goods In & Stock related layouts within OrderWise Business Management software. This is not an exhaustive list but are the typical layouts used within this area of the software. If you require different information to be displayed or have specific branding that is required for your layouts, you should discuss these requirements with your Business Consultant or Project Manager.

The examples included are:

- Allocation Note
- Variant Label
- Variant Transaction Goods Label
- Variant Transaction Goods Label GS1

Your company logo and contact details will replace the Airbox details shown on these examples.

If you require different information or designs than the example included or require specific layout documents that are not included in these examples then please contact us to discuss this.
